

REMARKS

A Petition for Withdrawal Under 37 CFR 1.313(c)(2) has been filed along with a Request for Continued Examination so that prosecution can be reopened in the subject application, mainly so that the attached Information Disclosure Statement can be submitted and considered. In addition, this Amendment is being submitted so that minor changes can be made to dependent claims 77, 79 and 88; and new dependent claims 98-108 can be presented to further define the scope of protection to which it is believed Applicant is entitled.

As noted in the Information Disclosure Statement, a number of references have come to Applicant's attention as a result of a letter received from the opposing counsel in a pending litigation involving one of the patents that is related to the subject application, US Patent No. 6,621,225. For the record, the pending litigation is identified as: Azoteq PTY Ltd. v. Photonlight.com, Inc. and Laughing Rabbit, Inc., Civil Action No. 3:03CV-2830-B, in the United States District Court, Northern District of Texas.

Applicant does not believe that the newly cited art raises any new issues of patentability as to the pending claims. However, Applicant nevertheless requests that the references cited in the IDS be considered and made of record in the subject application. Accordingly, favorable reconsideration of the application is respectfully solicited.

Respectfully submitted,

By: William A. Blake
